

Bellhop Wall Non Dimmable

■ F003C21A033 - Anthracite

Wall light version of the Bellhop Outdoor Collection for diffuse light, made of extruded and die-cast aluminium or stainless steel.

100-240V power supply integrated. Direct wall installation.

Each luminaire is equipped with 200 mm length cable for connection inside the luminaire body.

Recommended connection with a 2 way terminal block 4 poles IP68 H2O Stop, to be ordered separately.

Main specifications

Lamp category	LED	Mountings	Wall
Power	8.00	Environment	Outdoor
CCT	2700K		
CRI	80		
Net lumen (lm)	551		

Optical

Lighting type	Direct
LED type	Mid Power Led
Light distribution	Symmetric
Optical type	Diffused light
Beam angle (°)	85
Beam angle C90-270 (°)	85

Beam Angle: 0°

h(m)	E(lx)	D(m)
1	0	
2	0	
3	0	
4	1	
5	0	

Luminous flux luminaire
551 lm

Electrical

Frequency (Hz)	50-60	Driver type	Not dimmable
Voltage (V)	220-240	Emergency	Without
Lamp holder	LED	Insulation class	I
Dimmable	No		
Driver	Integrated		

Physical

Color	Anthracite
Orientation	Fixed
Weight (kg)	0.80

Note

We recommend using a connection system with a degree of protection greater than or equal to the degree of protection of the luminaire.

During the installation and the maintenance of the fixtures it is important to be careful and avoid damages on the paint coating.

Damages on the coating exposed to outdoor conditions or water, could cause corrosion.

Chemical substances affect the anticorrosion covering protection.

For LED fixtures, there is evidence that most of the damages are connected to electrical effects related to the insulations, which cause destructive electrical discharges

These effects are frequently caused by:

- over voltage coming from the mains' network where fixture is connected.
- electrostatic discharge (ESD) coming from the environment.

The use of a protective device against the overvoltage on the electrical installation is warmly suggest this helps to reduce the intensity of some of these phenomenon and prevent irreversible damages. The selection of the type of device to be used must be adjust on the electrical plant.
